PACRS Board
1735 Archer Lane
Nekoosa, WI 54457

Dear Contributor:

On behalf of the Wood County Land and Water Conservation Department, The Farmers of Mill Creek Counsel, and the Ag producers of the Wisconsin River Watershed Basin, I would like to thank you for the gift of money that you donated. Your donation was a great start to the goal of funding a No-Till drill that Wood County will make available to interested producers that want to start no-tilling & planting cover crops. This is an excellent way for your organization to stay connected & partner with the local Ag community and it is greatly appreciated. I will provide updates to the board as things develop and I am very fortunate to partner with your wonderful organization! Also thanks for another contribution to the Healthy Soil/Healthy Water program and your continuing support. Thanks again for your kind heartedness and support.

Sincerely,

Shane
